J.F. Taylor, Inc. is a privately-held company focused on providing the U.S. Navy engineering acquisition, test and evaluation, systems engineering, simulation systems, and infrastructure engineering support services and designing and manufacturing advanced military full flight training devices and associated visual databases, avionics models, and Instructor/Operator Stations. J.F. Taylor has extensive experience with Navy platforms and their missions, systems undergoing development and test, the DoD 5000 defined role of DT&E, and the test planning and execution process. Our engineers and professional staff provide the Navy program planning, test plan development, test execution, test asset development, coordination, and scheduling support. We perform laboratory and on-aircraft instrumentation design, development, and fabrication; T&E data analyses; and reporting per Navy standards. We also provide program management support that includes metrics analysis, cost estimating, and acquisition management. We assist NAVAIR in engineering solutions into hardware and software products, defining solutions to fleet identified needs, and developing training devices to support operational readiness.

**Functional Area(s)**

- 3.1 - R&D Support
- 3.2 - Engineering Support
- 3.3 - Modeling
- 3.4 - Prototyping
- 3.5 - System Des Doc/Tech Data
- 3.6 - Software
- 3.10 - CM Support
- 3.11 - QA Support
- 3.12 - IS / IA / IT
- 3.14 - Interoperability/T&E/ Trials
- 3.15 - Measure Facilities / Ranges
- 3.18 - Training
- 3.19 - In-Serivce Eng
- 3.20 - Program Support
- 3.21 - Administrative Support

**Past Performance**

Providing RDT&E engineering, test planning/preparation, test execution, and test reporting support under contract N00421-02-D-3179 for NAVAIR PAX (Steve Owens (301) 757-9535).

Providing design, upgrade, operation and maintenance of simulation systems for T&E and training under contract N00421-01-C-0422 for NAVAIR PAX (Tracey Johnston (301) 757-0804).

Providing aircraft acquisition management and trainer development support under contract N00174-04-D-0016 for NAVAIR PAX and NAVSEA Indian Head (Joe McClure (301) 744-4628 ext 276).

Providing E-2C aircraft mission computer, requirements, and avionics system engineering and acquisition support under contract N00421-03-D-0015 for NAVAIR PAX (Kay Handy (301) 757-7220).

Providing strike fighter aircraft integration, flight test and evaluation, and systems engineering support under contract N00421-02-C-3017 for NAVAIR PAX (Brenda Curry (301) 757-0701).

Providing program management, system engineering, and acquisition documentation support for Naval CNS/ATM aircraft integration under contract N00421-00-A-0579 for NAVAIR PAX (Berk Hoover (301) 481-0953).

Providing trainer modeling support under contract N61339-03-D-5005 for NAVAIR Orlando (Michael White(407) 380-4085).
